

# Lost River 16 Cultural Resources

Table 4. Isolated finds identified as a result of the Phase I Survey.

Isolated Find #	Field Shovel	Test#	Stratum (Level)	Artifact Description	Recommendation
46HY503	A	B-27	I (0-31 cm)	1-medium grey chert indeterminate biface fragment	No Further Work
46HY504	B	D-6	I (0-12 cm)	1-possible quartzite shatter	No Further Work
46HY505	E	I-1	I (0-32 cm)	1-rhyolite drill with broken tip	No Further Work
46HY506	F	Z-1	I (0-40 cm)	1-grey chert flake	No Further Work
46HY507	F	Y-1	2 I (0-25 cm)	1-tan quartzite Savannah River point fragment	No Further Work
46HY508	H	LL-9	II (12-52 cm)	2-mottled grey chert biface finishing flake	No Further Work
46HY509	J	O-9	II (12-35 cm)	1-light grey chert three-sided drill tip, lost in field	No Further Work
46HY510	O	DD-5	I (0-12 cm)	1-light grey chert flake fragment 1- grey chert core fragment	No Further Work
46HY511	L	L-2	I (0-20 cm)	1-milky quartz flake	No Further Work
46HY512	L	S-5	I (0-16 cm)	1-rose pink quartzite biface finishing flake	No Further Work
46HY513	O	GG-3	I (0-15 cm)	1-tan chert flake fragment	No Further Work
46HY514	O	II-13	I (0-20 cm)	1-light grey mottled chert biface thinning flake fragment	No Further Work
46HY515	R	D-6	II (20-30 cm)	1-iron object, corroded 1- light blue vessel glass	No Further Work
46HY516	R	N-12	I (0-15 cm)	1-light grey chert biface reduction flake	No Further Work
46HY517	R	Q-7	I (0-16 cm)	1-mottled grey chert biface finishing flake	No Further Work

Table 5. Summary of archaeological sites identified as a result of the Phase I Survey.

Site Number	Description	Recommendation
46HY495	Moderate-density lithic scatter representing the remains of one large prehistoric campsite or series of smaller short-term occupations at this location over time.	Avoidance or Phase II Investigation
46HY496	Moderate-density lithic scatter representing the remains of a Late Woodland campsite. Located immediately adjacent to the Phase I project area.	Phase II investigation if impact area expanded or future undertakings planned at this location
46HY497	Moderate-density lithic scatter representing the remains of a prehistoric campsite.	Avoidance or Phase II investigation
46HY498	Small low-density prehistoric lithic scatter representing the remains of a short-term occupation or activity area. It is unlikely that further investigation at the site will yield a significant increase in either the number or the type of artifacts.	No Further Work
46HY499	Dispersed, low-density lithic scatter representing the remains of a prehistoric campsite. It is unlikely that further investigation at the site will yield a significant increase in either the number or the type of artifacts.	No Further Work
46HY500	Small low-density prehistoric lithic scatter representing the remains of a short-term occupation or activity area. It is unlikely that further investigation at the site will yield a significant increase in either the number or the type of artifacts.	No further Work
46HY501	Moderate-density lithic scatter representing the remains of several small campsites at this location over time.	Avoidance or Phase II investigation
46HY502	Series of moderate-to-high-density rockshelters dating to the Woodland Period.	Avoidance or Phase II investigation

Table 6. Summary of architectural sites identified as a result of the Phase I Survey.

Site Number	Description	Recommendation
HY-0104	Small late nineteenth-early twentieth century farm complex.	No Further Work
HY-0105	Isolated mid-twentieth century barn/equipment shed.	No Further Work
HY-0106	1920-1930 bungalow and two goat barns.	No Further Work
HY-0107	1920-1950 frame house and associated springhouse.	No Further Work
HY-0108	Pre-1949 frame house with associated shed outbuildings.	No Further Work

Levanna Projectile Point site 46HY496

Savannah River Projectile Point 46HY507

Site 46HY502

Site 46HY501
